Career Objective

Fullstack Developer with experience in developing web applications and APIs, working with different stacks and architectures. I aim to contribute to building scalable and efficient solutions, applying software engineering best practices and agile methodologies.

Work Experience

Cearense Foundation for Research and Culture

Remote

Junior Systems Analyst (Backend Python)

Jan 2026 - Present

Working as a backend developer using Python with a focus on the Django framework, participating in the construction and maintenance of web systems.

- Development and maintenance of backend applications in **Python/Django**.
- Creation and consumption of REST APIs, ensuring system integration.
- Data modeling and query optimization in relational databases.
- Implementation of business rules, authentication, and access control.
- **Skills:** Python, Django, Django REST Framework, REST APIs, PostgreSQL, Clean Architecture, Unit Testing

FASTEF

Remote

Intern Backend Spring Boot Developer

Mar 2025 - Sep 2025

Worked as a backend developer in a microservices architecture using Java, Spring Boot, RabbitMQ, and PostgreSQL.

- Creation and maintenance of microservices in **Java/Spring Boot**, with asynchronous integrations via **RabbitMQ**.
- Modeling and query optimization in **PostgreSQL**.
- Participation in testing (**JUnit**) and architecture improvements in agile teams (Scrum).
- **Skills:** Java, Spring Boot, RabbitMQ, JUnit, PostgreSQL, Microservices, Software Architecture

FASTEF

Remote

Intern Backend .Net Developer

Oct 2021 - Jan 2025

Worked as a .NET backend developer at the software factory of the Dell Lead research center, operated by the ASTEF Foundation, working with agile methodologies (Scrum) and DDD architecture.

- Development and refactoring of REST APIs in **.NET (C#, ASP.NET, Entity Framework, SQL Server)**.
- Application of unit tests (**xUnit**) and parallelism for performance optimization.
- Modernization of legacy systems, migrating a monolithic application to **.NET 6** and later **.NET 8**.
- **Skills:** C#, ASP.NET Core, Entity Framework, SQL Server, xUnit, DDD, TDD

Education

Federal University of Ceará (UFC)

Quixadá, CE

Bachelor of Science in Computer Science

Feb 2019 - Aug 2025

- Emphasis on **Fullstack Development** (Web/Mobile) and **Computer Graphics** (OpenGL/Unity).
- Undergraduate Thesis: Search and Optimization Algorithms for Automated Planning.
- **Key Skills:** Algorithms, Data Structures, Software Engineering, Design Patterns, Artificial Intelligence.

Courses

ADA Tech | Vem Ser Tech Program (iFood)

Remote

Frontend Development Course - 324h

Oct 2023 - Mar 2024

- Intensive training in modern frontend development with a focus on **React.js**.
- **Topics:** HTML, CSS, JavaScript, TypeScript, React.js, Styled Components, Zustand, React Query, Formik.
